X-IT

Quick

Safe

Environmentally Friendly

X-IT Aerospace Cleaners are powerful enough for difficult dirt, grime and oil and safe enough for routine cleaning and maintenance.

Take your cleaning and degreasing to new heights with these environmentally-safe products.

Safe for people & the planet.

» X-IT Aircraft Wash

Clean light carbon, dirt, grease, grime and oil.

Won't leave residue behind.

Keeps exterior surfaces and parts looking pristine.

Can be used in:

- ✓ Ultrasonic Systems
- ✓ Parts Washer Systems
- ✓ Aircraft Exterior & Parts

» X-IT Carbon Remover & Cleaner

Removes heavy carbon, dirt, grease, grime and oil.

Heavy-duty cleaner for spot cleaning an aircraft.

Can be used on:

- ✓ Ultrasonic Systems
- ✓ Aircraft Exterior & Parts
- ✓ Exhaust & Other Carbon Coated Areas
- ✓ Parts Washer Systems

» X-IT Machine & Facilities Cleaner

Safe cleaning for everything from floors and workstations to parts and manufacturing equipment.

Won't leave residue behind

Strong enough to tackle grease, oil, carbon, dirt, grime, machining residue or smoke film.

Can be used on:

- ✓ Ultrasonic Systems
- ✓ Parts Washer Systems
- ✓ Workstation/Hangar Floors
- ✓ Metalworking Machine Cleaning
- ✓ Equipment Cleaning

Pair X-IT Aircraft Wash with PreKote Surface Pretreatment to save valuable time and improve paint and primer adhesion. Due to similar chemistry in the formulas, there's no need to let the surface dry before applying PreKote.

Non-toxic

Non-corrosive

Non-hazardous

Odorless

Aqueous-based

The Company Behind X-IT

Founded more than a decade ago, Pantheon Enterprises is a pioneer in the chemical industry and firmly believes that chemicals should not be toxic or hazardous and perform better than their toxic competitors. PreKote, Pantheon's flagship product, changed the way the military and aerospace industries use pretreatments and paint—transforming the industry and leaving less of a negative ecological footprint on the earth. Pantheon's other superior products are used by governments, commercial enterprises and consumers who share the desire to promote health, improve working conditions and protect ecosystems.
