

# Remediate Toxic Spills From Any Surface

First Response  
REMEDICATION

Quickly | Safely | Effectively

## Protect People, Wildlife and Ecosystems from Toxic and Life-Threatening Oil and Fuel Spills

The First Response Remediation Kit is the most tested and proven bioremediation product in the world. This product mimics Mother Nature and provides a safe, natural way to clean up a wide-range of toxic contaminants such as oil, gas and fuel.

- › Quickly diminishes toxicity to humans, wildlife and ecosystems
- › Prevents oil and fuel adherence to environmental substances
- › Remediates many compounds *see reverse side for complete list*
- › Reduces fire hazards

### Use Anywhere:

#### Water

- › Oceans
- › Lakes
- › Rivers
- › Brackish Water
- › Marshes

#### Land

- › Sand
- › Soil
- › Concrete
- › Asphalt
- › Rocky Areas

#### Indoor

- › Kitchens
- › Grease Traps
- › Garage

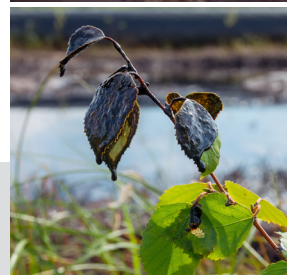

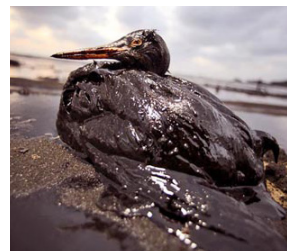

#### 2 Liter Kit Includes:

Durable Carrying Case, Liquid Remediation Solution, Sprayer With Nozzle, Laminated Informational Sheet

Oil spills have a significant negative impact on environments. They endanger wildlife, destroy vegetation and cause health and safety problems for humans.

What nature can remediate in 20+ years  
the First Response Remediation Kit can do in 7 days.

# #1 Choice for Enzyme Based Bioremediation

## Proven, Rapid & Effective

The chemistry in the First Response Remediation Kit has been used by refineries, fire departments and military in more than 40 countries for the last 25+ years. This product contains the enzymes, bio surfactants, nutrients and other necessary components for complete biodegradation. Rather than introducing foreign microorganisms, this remediation solution utilizes indigenous bacteria to biodegrade oils and fuels and has been proven to remediate an extensive list of hazardous materials.

The spill is detoxified to the point that indigenous (natural) bacteria can now utilize the oil as a food source.

**Environmentally Friendly**

**Non-Toxic**

**Biodegradable**

**Long Shelf Life**

**Easy to Use & Cost Effective**

## Contaminants that this product will bioremediate

### Crude Oils

- › Alaskan North Slope Crude Oil
- › Texas Sweet Crude Oil
- › South African Crude Oil
- › Bunker C Crude Oil
- › Venezuelan Crude Oil
- › Mexican Crude Oil
- › Louisiana Crude Oil
- › Kuwait and Saudi Arabian Crude Oil

### Pesticides

- › DDT
- › Malathion
- › Organo Pesticides

### Compounds

- › Animal Grease
- › Benzene
- › Brake Fluid
- › C18
- › C30
- › Chrysene
- › Co Polymers
- › Creosote
- › Deicing Agent
- › Dioxins
- › Ethyl Benzene
- › Ethylene Glycol (Radiator Fluid)
- › Fluorene
- › Furans
- › Gun Powder
- › Hexadecane
- › Hopane
- › Hydraulic Oil
- › Kerosene
- › Motor Oils
- › Naphthalene
- › No.2 & No.6 Heating Oil
- › PCBs (Poly Chlorinated Biphenols)
- › Perchloroethylene (Dry Cleaning Fluids)
- › Phenanthrene
- › Phytane
- › Power Steering Fluid
- › Pristane
- › Tert Butyl Ether
- › TNT
- › Toluene
- › Vegetable Grease
- › Zylene

**More contaminants continuously added to this list.**

**The only remediation product that can remediate 100% of an oil spill.**

\*The listing of a product on the NCP Schedule does not mean that EPA approves, recommends, licenses, certifies, or authorizes the use of the product on an oil discharge. The listing means only that data have been submitted to EPA as required by Subpart J of the national Contingency Plan, Section 300.915. (Source: 40 CFR § 300.920 (e)) There is an established process that manufacturers must follow to have a product listed on the NCP Product Schedule

\*Oil Spill Eater II (OSE II) is Manufactured by OSEI Corporation.
